On last Saturday news reached Salt Lake of the burning of the Visitation convent in Washington, D. C. Great regret was expressed for this misfortune by many Salt Lakeers, who claim the convent for Alma Mater. Many western girls attend the Visitation convent, among them being Miss Grace Emery, Miss Margaret Daly, Miss Margaret Paul, Miss Louise Paul, Miss Helen Lavell, the Spokane mining magnate, and the Misses Lavell, nieces of J. H. Tarbet of Salt Lake; Miss Helen Lavell will graduate this year. The latter young ladies were visiting with their parents in Washington at the time of the fire.

An Associated Press special from Butte says: A. H. Tarbet of Salt Lake, Mrs. P. A. Largey and heirs of the Largey estate and others have purchased the famous Smoke House lodge. The deal includes the Destroying Angel and the Copper Bottom claims, and consideration is said to be \$300,000, \$25,000 of which was paid in cash. The remainder is to be paid in five \$50,000 installments every sixty days. The Smoke House, Destroying Angel and Copper Bottom claims were owned by John Noyes, Jr., James Murray, Pat Mullins, the heirs of the Largey estate and Colonel H. H. Horst, while smaller interests were distributed among a great number of people. The lead has always been supposed to be rich in copper, and when ground was broken for the foundation of the Thornton hotel building last spring the lead was exposed, showing a width of about 160 feet. Shortly afterward negotiations on Mr. Tarbet's behalf, looking to the purchase of the property, were commenced. About a week ago Mr. Tarbet, accompanied by Frank McGuire, his private secretary, arrived in the city from Salt Lake, and since that time conferences between the owners of the property and the purchasers have been numerous. If the results at a depth of 400 or 500 feet are what the Tarbet syndicate expects, the main shaft will be sunk several blocks south of the place where work was commenced. It is the intention to drive the main shaft down to a depth of 1,000 feet. The vein runs under the very heart of the city, and tunnels will be run under large business houses.

THE KENYON.

Salt Lake City's New Hotel.

Enjoying the distinction of being located in the exact geographical center of the main business portion of Salt Lake City immediately surrounded by all the great retail stores, and places of amusement is "The New Kenyon," large, superb and incomparable. The eye of the luxury-loving commercial man, or the swell tourist, always rolling a favoring glance toward a very centrally located, elegant, first class hotel rests with complacent satisfaction upon Don Porter's palatial hostelry of FIN DE SIECLE Salt Lake City.

Zion's Savings Bank and Trust company was established in 1874, and has since opened more than twenty-four hundred and seven accounts. Have you an account? If not, start one NOW.

sidewalk to ridge of main building.

The tower is on the southwest corner, which is 22 feet square and 130 feet high. The basement is built of real sandstone under the whole of the building, which will be 3 feet in the clear finished. The main body of the building is of cut gray sandstone trimmed with red.

The spacious front entrance will be Gothic doors and side lights, and one in the tower opens into the vestibule, 14 by 24; then into the baptistry, 14 by 20, and into the auditorium, which is 64 by 98. The ceiling is 45 feet high in the center, springing from side walls in one great Gothic arch between six trusses. All are finished up with pressed steel paneled work. The stairs to the organ and choir gallery will be in the tower over the main entrance. The vestry entrance is on Adams avenue—the north end of the building.

All the woodwork, doors and interior trimmings are the best quartered oak, designed, built and finished in harmony with the architecture of the church. The interior color decorations will be light and cheerful. The auditorium will be heated with hot air and will be piped and wired for both gas and electric lighting.

The windows will be of stained art glass, and will be enriched with such scriptural groups and emblematic and symbolic designs as may be selected. The church will soon be finished and will stand as a magnificent monument of the generosity of the enterprising Catholics of Ogden.

Rev. Father Cushman, the devoted pastor of St. Joseph's, has labored hard for many years, and the fruits of the work show today in the love which is borne for him by everyone in Ogden. Catholic and non-Catholic alike. It will be a proud day for him and his devoted flock when the beautiful new structure will be dedicated—one which will be worthy of God's temple. The credit of building the church belongs chiefly to Rev. Father Cushman, but he has been nobly encouraged by his parishioners, who have made many sacrifices in the cause of religion.

At the 8 o'clock service on Christmas many beautiful carols were sung by the children's choir of fifty voices with rather accompaniment by Miss Bertha Brown a talented little musician.

No matter how small his wages, every clerk in a store should so manage his living expenditures as to put into a savings bank a certain amount of his income every month. Aside from contracting the habit of thrift, the money will help him over a hard spot some time. It will also materially increase his salary and give him a comfortable feeling of personal independence. The Denver Savings Bank is located at Sixteenth and Arapahoe.

Laramie, Wyo., Dec. 28.—The Nativity of our Lord was duly celebrated on Christmas day with High Mass at 8 and 10 o'clock, and Low Mass at 8, the Rev. Father Commiskey officiating. The Church was beautifully decorated with ferns and palms, and the altar was ablaze with lights and decorated with cut flowers. The choir, which consisted of a double quartette, rendered Rosewig's Mass in F in a most masterly manner. At the 10 o'clock Mass Miss Helen Ryan presided at the organ, and was ably assisted by Professor Nelke with the violin. The soloists were Miss Agnes Kleiman, Miss Bessie Callahan, Miss Annie Brown, Mr. George Deckelman and Mr. C. E. Capenter. The offertory, "Wherefore is the Mass," was beautifully sung by Miss Agnes Kleiman, and her beautiful soprano voice filled the Church with its rich volume and tender pathos. The Rev. Father, at 10 o'clock Mass, preached an able and instructive sermon on the "Influence of the Birth of Christ Upon the History of the World." Taken all together, the celebration of Christmas of 1899 will be remembered by the Catholics of Laramie.

How Interest Increases.

Few people stop to realize the enormous earning power of interest, and it is those few who become wealthy and remain so. If a young man, 18 years old should begin to save one dollar per month, and put it at interest at 4 per cent, when he reached the age of 50, he would have \$34,973.75, and could retire on a yearly income of \$828.08. If he got 6 per cent interest, he would have \$48,016, and could retire on a yearly income of \$2,880.96. The 6 per cent man would have more than double the income of the 4 per cent man. How few there are who could not save one dollar per month, and yet how few there are who at 50 years of age are worth \$34,000. It is small at first, but grows like a rolling snowball. Money invested through McGurran & Co., Salt Lake City, earns 6 per cent interest, compounded semi-annually. Each person's money is separately secured by first mortgage on real estate, and is not mixed in with the business of anyone else.
